ALBANY TO UNVEIL LONG RANGE CITY PLAN AT PUBLIC HEARING

A proposed Preliminary General Plan extending some 20 years into Albany's future will be unveiled and discussed to the public for the first time at a "Town Meeting" scheduled for Wednesday, June 23, 8 p.m. in the City Council Chambers at the City Hall.

The Plan was prepared by Lawrence Livingston Jr., a city and regional planning consultant of San Francisco, who will be present to explain all phases of the long-range program. During the past nine months the Plan has been reviewed and revised by the Albany Planning and Zoning Commission and is now ready for public discussion.

Chairman George Hoyt of the Planning Commission has urged every resident and property owner in Albany to attend the meeting in order to become thoroughly acquainted with the Plan. Reactions to the proposals are invited to be expressed at this meeting, he said.

Features of the Preliminary General Plan include proposals for the development of Albany Hill, the off-shore tidelands, industrial areas, a shopping center, residential areas, playgrounds, a civic center, railroads and streets and highways.

Hoyt explained that the "town meeting" is not one of two official public hearings required by State law before final approval of the Plan and recommending it to the City Council for adoption. Dates of the official hearings will be announced later in the press.

Hoyt said that when the Council

receives the plan and explanatory report, the Council is required to hold at least one public hearing before passing on it. Any changes must be referred back to the Commission for recommendations before final action is taken.

The June 23 meeting is to inform the public of the proposals for land use and street patterns extending 20 or 25 years into the future, he said.

Baptists to Hold Ground Breaking

The First Baptist Church of Albany will conduct ground breaking ceremonies for its new educational unit at 1319 Solano Ave. immediately following the 11 a.m. service Sunday.

Construction of the new unit is expected to start within three weeks and will take approximately 120 days to complete. The first shovel of dirt will be turned by Mrs. Clara Fessenden, a pioneer member of the church.

A special program is being planned consisting of musical numbers by the choir and male quartette, composed of Elwin Layton, Vivian Collicott, Loren Endsley and Don Island.

Others taking part in the program include the Rev. A. O. Odegard, pastor; Claes V. S. Wyckoff, master of ceremonies; Hugh Williams, Wayne Bailey, Fred Werner, Van H. Creek and Mason Layton.

Board of Education Eyes \$1,318,900 Record Budget

The Albany Board of Education, at its regular meeting of Tuesday, June 8, took under consideration a study of the 1954-55 school budget in the amount of \$1,318,900. The proposed budget, calling for no change in the present \$1.76 tax rate, is \$53,548 greater than that for the present year, according to Superintendent Paul C. Bryan. The increase, he explained, is provided for through additional state and federal funds that will be received as a result of increased attendance in the Albany schools. The budget, Bryan said, is tentative only and can be modified by Board action any time prior to its final adoption on August 8.

Construction Boosted Here During May

Albany construction totaled \$78,765 during the month of May, an increase of \$36,130 for the same period last year.

The city issued 27 permits for construction and alterations, including one new commercial building and two homes, according to a report of City Engineer H. N. McLaughlin.

Dr. Leonard Ling, local dentist, is constructing a new commercial building at 1306 Solano Ave. at an estimated cost of \$18,500, which will include space for an office, store and apartments.

Frank Richards is constructing a \$14,000 home at 853 Washington Ave. and H. F. Evans is building a home at 718 Ramona Ave. estimated to cost \$15,500. Emil Jensen is building a duplex at 819-A and B Kains Ave., costing \$11,200.

Albany Hospital is making an \$8000 alteration on its basement to provide for a nurses' lunch room.

Other leading figures in the report showed nine permits were issued for home alterations, \$5421; five re-roofs, \$1103; two car ports, \$1500, and a church alteration, \$2000.

Fees collected during May totaled \$411.85.

In the Street Department, a bid of \$1950 has been awarded to the Ferro Enamel Co. of Oakland to provide new street name signs. The new signs will have white numerals on a black background, with attachable block numbers.

Several sidewalks were repaired during May, along with the base of several streets for the eventual resurfacing program. Several sewer repair jobs were completed, and the street striping project continued.

Albany Soroptimists will meet at 6:30 p.m. Wednesday at the home of Miss Miriam Gilsenan, 2963 Magnolia Ave., Berkeley.

The budget considered by the Board was based on the employment of the same number of full-time personnel as employed by the School District this year and in accordance with the present salary schedules. The Superintendent was requested by the Board to compute the cost of the new salary schedule proposed by the Albany Teachers Association for classroom teachers.

Donald E. Young, chairman of the salary committee of the Albany Teachers Association stated that this proposed schedule would bring the Albany teachers' salaries to a place comparable with those paid in neighboring districts, and that the cost to the Albany School District would be an additional \$120,000. Board members inferred every effort would be made to grant salary advances consistent with school district income. Dr. Bryan pointed out that the gradual evacuation of Codornices Village might seriously affect the district's income. Most of the federal aid that Albany receives, Bryan said, is for children who live in Codornices Village.

The proposed budget sets aside 82.1 per cent of the total expenditures for salaries. Also allocated is \$80,200 for maintenance and \$36,850 for capital outlay, \$65,450 in undistributed reserve and \$60,000 in a general reserve, which is not available for use during 1954-55 but is reserved as an emergency fund for use during the following school year. The maintenance projects that are included in the budget are the paving of Vista playground, an incinerator for Marin School, reconstruction of the high school cafeteria, musical equipment, accounting machines, furniture and science equipment.

Renovation of the high school cafeteria is expected to cost \$40,000, of which 65 per cent will be paid for through maintenance funds and (Continued on page 4)

Gas and electricity
are cheap in
California

When the Husteds moved to California, they were delighted to discover that all their appliances cost less to run.

Their P. G. and E. bill in one month was \$9.70

In their former home, the same amount of gas and electricity would cost \$17.56

With gas and electricity so cheap in California, you pay less to run appliances, so you can enjoy more of them. Incidentally, if you're shopping for a wedding present, why not give an electrical gift!

"In one month my toaster made 200 slices of toast, for just 6¢

says Mrs. Robert L. Husted, 914 Downing Avenue, Chico, shown here with her daughter, Elizabeth

"My family really enjoys the crisp, brown toast we get from our wonderful automatic toaster! And I was amazed when I discovered how little it costs to run. Why, we had a whole month's worth of toast for breakfast and snacks—200 slices of it—for just 6¢ operating cost. That's my idea of a bargain. All our appliances give us real pleasure, and they cost so little to operate."

Marin Scouts Present Awards

Parents were the honored and interested guests of Boy Scout Troop 24 Friday on the occasion of their quarterly Court of Honor. The event was held in Marin School's newly modernized cafeteria at 8 p. m. Dessert was served following the ceremonies, with compliments of the Scout Mothers' Club, Mrs. Lynn Duggan president.

The leading award for the boys was a Star Scout Rank for Gordon Frankie. Bob Jensen, Donny Trotter and Paul Barrett all received first class rank with the accompanying citations. Second class rank were presented to Alan Kilpatrick and Ross Miller, the latter also receiving his long overdue Tenderfoot Badge. Miniatures of all these badges are always given to the boys' mothers, compliments of the Troop Committee.

A number of Merit Badges of varied accomplishments were presented to Philip Herliet, Robert Jensen, Gordon Frankie and Ridge Patton. All boys 11 years

35 per cent from capital outlay. The question of improving high school cafeteria facilities has been considered by a special committee of parents, teachers and students for many months. The committee approved the reconstruction of present quarters rather than the construction of a new cafeteria because of the much lower financial cost involved.

Other allocations within the budget covered a variety of expenditures related to the operation of the six Albany schools.

READING INSTRUCTION

The methods of teaching reading to pupils in the second and third grades in the Albany schools were reviewed at the Board meeting by two Albany classroom teachers. Mrs. Marion Harris, second grade teacher at Marin School, explained to the Board how phonics, as one method of learning new words, was emphasized at this grade level. Mrs. Marjorie Saylor, third grade teacher at MacGregor, stated that the

phonics program started in the earlier grade was extended and continued at the third grade. Other reading skills that were discussed include reading to secure main ideas and details, reading to follow directions, and reading for appreciation. It was pointed out that dictionary study of words and exercises involving prefixes, suffixes, and breaking words into syllables are also introduced at this grade level.

GRADING AT ALBANY HIGH

In other business that came before the Board, Chas. C. Moore, Principal of Albany High School, submitted a report on methods of grading at Albany High and the use of granting extra credit to high school students for extra work done over the regular course requirements. Following a lengthy discussion of both problems, the Board, on motions made by Member John C. Longaker, approved the following policy statements: "That the application of the normal distribution curve to the class average as a method of grading be eliminated," and "That it be the policy of the Board to encourage the giving of extra credit for extra work when the daily classroom work has been done, and only for 1/3 grade credit; e.g., from C+ to B—, and where in the judgement of a teacher it serves a sound pedagogical purpose."

It was suggested by Longaker, at the close of the 5-hour meeting, that the Board consider authorizing a complete survey of Albany High School by a professional group associated with the University or State college. Due to the late hour, Board President Philip F. Meads asked that Board members give this proposal further consideration at subsequent meetings. Also, deferred for further consideration was the request of Principal Moore that the School District grant financial aid for the cost of transporting athletic teams to neighboring communities, an expense now borne by the High School Student Body Association. The Board suggested that the Student Body incorporate this request in a letter that would explain the need for financial help and describe in detail what is desired and the estimated cost.

GRACE LUTHERAN

Rev. O. R. Janke, pastor of Grace Lutheran Church, Santa Fe Ave. at Ward, will speak at both the 9 a. m. and 11 a. m. service next Sunday on "The Escalating Riches." The lesson topic for the graded classes of the Sunday School meeting at 9:45 a.m. will be, "Paul at Athens."

Divided Payments

Many families desire extended terms when making financial arrangements with a funeral director. This is only natural, since a large percentage of the families who call a funeral director in time of need, have had to meet tremendous expenses during the final illness.

When a family calls us, an extended payment plan is offered when it is desired. Actually, it is no set plan, since payments are determined to meet the family's exact requirements. We have received many appreciative comments upon this service; we feel that it is a privilege for us to assist in such a manner.

Fireworks in Albany Limited To Cap Pistols

With the approaching Fourth of July holiday celebration, Albany Fire Chief Fred Pimental today has recommended that celebrants observe the local law as well as the State code prohibiting the sale and discharge of fireworks listed as dangerous.

"In other words," the Chief emphasized, "cap pistols are about the only device allowed under these laws and they are actually controlled under a specification that they contain not more than 25 hundredths grain of explosive compound to each paper cap."

Pimental said that fireworks considered as dangerous by the California State Safety Code means "all types of pyrotechnics" and include some of these more common types.

Firecrackers, salutes and other explosive articles of similar nature; blank cartridges; sky rockets, including all devices which rise in the air during discharge; Roman candles and all devices discharging balls of fire into the air; chasers, which dart or travel about the surface of the ground during discharge; snakes, boa constrictors and snake nests, containing bichloride of mercury; all articles for pyrotechnic display which contain gunpowder and articles commonly known as son-of-a-gun, devil on the rock, crackit sticks, and roll torpedoes which contain arsenic.

"These laws may seem a bit strict," Pimental concluded, "but they are for the protection of our children and their future as physically fit men and women and not as handicapped persons without sight or hands."
